

Aurora

Event Name: Aurora 2.0: Beyond the Horizon

Opportunity Type(workshop/hackathons): Hackathon

About the Opportunity(Description) : Aurora 2.0 is a hackathon that brings together satellite datasets, AI-powered analysis, and practical problem-solving to address some of the world's most pressing challenges. The event aims to spark creativity and innovation among participants by bridging the realms of space technology, remote sensing, and AI-driven geospatial analytics. Through curated datasets and collaborative development, teams will apply cutting-edge technology to design impactful solutions with real-world relevance.

Rules:

Important(should be there):

- Every team has to register online on the official Techfest website for the competition.
- A Team ID will be allocated to the team on registration which shall be used for future references.
- The decision of the organizers or judges shall be treated as final and binding on all.

Others:

- It is a team event. Participants must form teams in sizes ranging from 2-6.
- Mention all the guidelines like eligibility, format, etc:-
- Number/Duration of the rounds:- 3 Stages
 - Stage 1(50%).Remote Sensing Hackathon(online)
 - Stage 2(15%).Quiz on space and data science(offline)
 - Stage 3(35%).Presentation(offline)
- Mode(online/offline):- Online hackathon and Offline Quiz+Presentation.
- Teams must maintain a public repository on GitHub.
- At least one team member must join the following whatsapp group(link).
- Submit the public repository of your solution as per the instructions given in the problem statement in the (link to be made).

Timeline(in tabular format):-

Phase	Tentative Dates	Description
Hackathon Launch	22 Dec 2025	Release of problem statement and dataset. Teams begin working on their solutions.

Hackathon Submission Deadline	4 Jan 2026 (EOD)	Teams submit their complete solutions for evaluation.
Shortlist Announcement	7 Jan 2026 (EOD)	Top 8 teams are announced for the final onsite stages.
Technical Quiz (Stage 2)	26 Jan 2026 (10:00–11:00 AM)	One-hour quiz on astronomy, remote sensing, and geospatial data science
Final Presentations (Stage 3)	26 Jan 2026 (3:00–6:00 PM)	Onsite presentations before the jury at CLT, IIT Dharwad.

Deliverables:

- Github repository with code written in a jupyter notebook. With comments wherever necessary.
- Readme file with all necessary instructions to run the code error-free.
- Report on the thought process, experiments, and research done to implement the solution and Future Scope Of The Work.
- A concise presentation must be prepared if selected for the 2nd round.

Organizers(name, phone number, mail id):-

Event Lead - **Aniruddh Pandav** ; Mail - ee23bt031@iitdh.ac.in ; Phone - +91-9618218601

Event Co-Lead - **Balamurali V B** ; Mail - me24bt047@iitdh.ac.in ; Phone - +91-6383651842

Rewards and Prizes:-

- Prize Pool - 14000 (6000+4500+3500)
- Coffee Mugs for Quiz Winners
- Participation token

Registration Form:-

- **Compulsory:** Team Name, Members Name, Members Phone Number, Members Mail-Id, Members College Name

Comment:

For offline events - accommodation shall be limited/exclusive keep an eye on website.

Protocraft

Event Name: Protocraft

Opportunity Type(workshop/hackathons): Hackathon

About the Opportunity(Description) :

Protocraft is all about thinking like an engineer and building like a creator. You'll get a theme-based challenge and the freedom to explore, sketch, model, and refine your ideas using solid mechanical principles. It's a chance to push your creativity, test your problem-solving skills, and see how your designs come to life. Protocraft celebrates the thrill of designing, the joy of innovation, and the satisfaction of turning ideas into something real.

Rules:

- Participation Format - Students may participate **individually or in teams of up to 3 members.**
- Originality
 - All design work must be **original** and created during the event duration.
- Software Usage
 - Participants may use **any CAD software** (SolidWorks, Fusion 360, Solid Edge, CATIA, etc.).
 - Any simulation/analysis tools are **allowed.**
- Submission Requirements
 - **Final CAD model** (STEP/SLDPRT/SLDASM/STL format)
 - **2-page design explanation** describing:
 - Design reasoning
 - Performance advantage or enhancement
- Presentation Round
 - Shortlisted participants must present to judges.
 - Presentation time: **7 minutes + 3 minutes Q&A.**
 - Visual clarity and reasoning will be evaluated.
- Disqualification Grounds
 - Any form of copying or plagiarism.
 - Use of AI-generated CAD models with or without manual refinement.
 - Misrepresentation of work or datasets.
 - Any shortlisted team who do not present in the presentation round will be straight away disqualified.

Eligibility: Anyone :)

Important Note -

- Only top **12 teams** are to be shortlisted from the online round.
- These 12 teams will be judged and shortlisted by the Event Lead and Co-Lead based on the design's **Functionality, Creativity, Relevance to Theme**.

Important(should be there):

- Every team has to register online on the official Techfest website for the competition.
- A Team ID will be allocated to the team on registration which shall be used for future references.
- The decision of the organizers or judges shall be treated as final and binding on all.

Others:

- Mention the rules of the competition.
- Mention all the guidelines like eligibility, format, etc:-
- Number/Duration of the rounds:-
 - 2 Rounds (10 days + 3 hours)
- Mode(online/offline):-
 - 10 days before PARSEC 6.0 - **Online mode**.
 - 3 hours **Offline** presentation round during the actual event.

Timeline(in tabular format):-

Round	Mode	Tentative Time / Duration
1	Online	13 Jan 2026 - 22 Jan 2026
2	Offline	25th Jan 2026 2:00-5:00 PM

Organizers(name, phone number, mail id):-

1. FARHAAN NASIR - +91 88842 65444 / me23bt023@iitdh.ac.in
2. KAVICHELVAN K - +91 97895 92295 / me23bt028@iitdh.ac.in

Rewards and Prizes:- (Cash + In-kind)

- Prize money - ₹4000 + 3000 + 2000
- Winners Merch -
 - 1st Place - Hoodie
 - 2nd Place - Oversized Tee
 - 3rd Place - Normal T-Shirts

Registration Form:-

- **Compulsory:** Team Name, Members Name/Phone Number/Mail-Id
- **Others:** Merch Size

Comment:

For offline events - accommodation shall be limited/exclusive keep an eye on website

DevHack

Event Name: DevHack 7.0

Opportunity Type(workshop/hackathons): Hackthon

About the Opportunity(Description) :

DevHack 7.0 is a 30-hour flagship hackathon of **PARSEC 6.0**, the annual technical festival of **IIT Dharwad**. It brings together passionate innovators, developers, and creators to collaborate, experiment, and build impactful solutions that push the boundaries of technology and imagination.

Participants will embark on an intense 30-hour journey of brainstorming, coding, and problem-solving - turning bold ideas into working prototypes.

Guided by mentors and evaluated by a panel of industry experts, participants will have the opportunity to learn, innovate, and showcase their talent in a highly collaborative and competitive environment.

More than just a competition, **DevHack 7.0** is a platform to learn, network, and grow — where ideas take shape, collaborations are forged, and innovation thrives. Whether you're a beginner or an experienced developer, this is your chance to challenge yourself, create something meaningful, and be part of one of the most dynamic hackathons of the year.

Rules:

Important(should be there):

- Every team must register online on the official PARSEC website to participate in DevHack.
- A Team ID will be allocated to the team on registration which shall be used for future references.
- The decision of the organizers or judges shall be treated as final and binding on all.
- Top 33-34 teams will be shortlisted from the online round.
- These teams will be judged and shortlisted by the Event Lead and Co-Leads based on their understanding of PS and their approach to solve it .

Others:

- Guidelines:
 - Participation Eligibility: Any UG/PG students from all colleges across India
 - Team Size: 3-4 members
 - Duration: 30 hours + 3 hours for the final presentation round
 - Venue: IIT Dharwad, Permanent Campus
 - Mode: Offline

- **Registration Fee: Free (No charges apply!)**
- **Rules**
 - Teams must carry their college ID cards for verification during the onsite round.
 - Use of open-source tools and frameworks are permitted.
 - Plagiarism, unfair means, or misconduct will result in disqualification.
 - Teams are expected to maintain professional and ethical conduct throughout the event.
 - The organizing committee reserves the right to modify rules, format, or evaluation criteria if necessary.

Competition Format

1. Preliminary Phase (Online Submission)

- The **problem statement** will be released **prior** to the hackathon.
- Teams must submit a **brief report** detailing their *approach, methodology, and proposed solution*, based on which they would be shortlisted.

2. Hackathon Phase (Offline – 30 Hours)

- Shortlisted teams will develop their solutions at **IIT Dharwad** over 30 continuous hours.
- Deliverables include:
 - A **GitHub repository** containing all project code and documentation.
 - A **demo video** showcasing the working prototype.

3. Final Presentation Round (Offline – 3 Hours)

- Selected teams will present their solutions before a panel of judges.
- Evaluation will be based on *innovation, creativity and real-world applicability*.

Timeline(in tabular format):-

Phase	Timeline
Preliminary Phase Start Date	22nd December 2025

Preliminary Phase Submission Date	04th January 2026
Announcement of shortlisted teams	10th January 2026 EOD
Commencement of Hackathon	24th January 2026 9:00 AM
Repo and Video submission deadline	25th January 2026 3:00 PM
Presentation Round of Selected Teams	26th January 2026 10:00 AM

Organizers(name, phone number, mail id):-

Event Lead - **Nidhish Doshi** ; Mail - cs23bt009@iitdh.ac.in ; Phone - +91-8240525200

Event Co-Lead - **Anant Tripathi** ; Mail - mc24bt001@iitdh.ac.in ; Phone - +91-8400990007

Event Co-Lead - **Gourav Sherikar** ; Mail - mc24bt009@iitdh.ac.in ; Phone - +91-9742626777

Rewards and Prizes:- (Cash + In-kind)

- 🏆 1st Prize: ₹10,000
- 🥈 2nd Prize: ₹7,000
- 🥉 3rd Prize: ₹4,000
- 🏆 JustJuniors (1st Prize): ₹2,500
- 🥈 JustJuniors (2nd Prize): ₹1,500
- 📁 Goodies for all shortlisted teams participating in the offline hackathon phase!
- 📜 Certificate of participation for all the participants

Registration Form:-

- **Compulsory:** Team Name, Members Name/Phone Number/Mail-Id/Institute Name/Batch
- **Others:** Merch Size

Comment:

For offline events - accommodation shall be limited/exclusive keep an eye on website

VVV

Event Name: Veni Vidi Veci

Opportunity Type(workshop/hackathons): Hackathon

About the Opportunity(Description) :

PARSEC's premier Capture The Flag (CTF) competition that tests your skills in cryptography, forensics, reverse engineering, web exploitation, OSINT and more. Designed for both seasoned hackers and curious newcomers, VVV challenges participants to solve a series of progressively complex puzzles — each revealing a hidden flag and taking you one step closer to victory. Whether you compete solo or as part of a team, your problem-solving skills, analytical thinking, and technical mastery will be pushed to the limit.

Rules:

Important(should be there):

- Every team has to register online on the official Techfest website for the competition.
- A Team ID will be allocated to the team on registration which shall be used for future references.
- The decision of the organizers or judges shall be treated as final and binding on all.

Others:

- **Guidelines:**
 - Participation Eligibility: Any UG/PG students from all around the world
 - Prize Eligibility: Any undergraduate/postgraduate students across colleges in India
 - Team Size: Maximum 3 members
 - Duration: 48 hours
 - Venue: [Website](#)
 - Mode: Online
 - Style: Jeopardy
- **Rules**
 - Use the same email ID you registered with on Unstop to create your account on the CTF website.
 - Do not attempt to overwhelm or attack the infrastructure. Any such activity, including brute-forcing flags, will result in immediate disqualification.

- If you discover a vulnerability in the CTF infrastructure, report it immediately to the organizing team.
 - Do not exploit, disclose or share vulnerabilities through public platforms or any other means.
 - Do not share flags with other teams or participants. Sharing flags will lead to disqualification.
 - Dynamic scoring is enabled:
 - As more teams solve a challenge, its point value decreases for everyone.
 - Sharing flags helps your opponents and reduces your own score.
 - Ensure all flags are submitted in the correct format: `parsec{flag_text}`
 - Flags submitted in an incorrect format will not be accepted.
- Participants are allowed to use AI tools responsibly and ethically.

Timeline(in tabular format):- from 9PM Friday 16th to 9PM Sunday 18th

Organizers(name, phone number, mail id, Discord):-

- Vishvanathan K - +91 8903883306 - ep23bt002@iitdh.ac.in - Jerrasterix
- Amogh R - -
- Sreejita Chatterjee - +91 9987261023 - mc24bt002@iitdh.ac.in - sreejitachatterjee9768

Rewards and Prizes:-

- Prize pool:
 - First Place: 5,000Rs
 - Second Place: 3,000Rs
 - Third Place: 2,000Rs
- T-Shirts for Top 3 Place Members
- Prizes are reserved only for current residents of India

Registration Form:-

- Compulsory:
 - Team Name,
 - Members Name/Phone Number/Mail-Id
 - Country of Residence
- Others: Merch Size

AlgoStrike

Event Name: Algostrike

Opportunity Type(workshop/hackathons): hackathons

About the Opportunity(Description) :

Join us for the Algostrike at *Parsec 6.0*, IIT Dharwad's annual tech fest. It's a high-stakes challenge where top coders solve algorithmic problems under pressure , testing logic, speed, and strategy. A platform to showcase your coding prowess and compete with the brightest minds.

Event Details:

- Event Type: Individual programming competition
- Venue: IIT Dharwad Permanent Campus
- Mode: Offline
- Round: Single round
- Duration: 2 hours
- Registration Fee: Free (No charges apply!)

Competition Format:

- Participants will be given 6-8 coding problems to solve within the allocated time of 2 hours.
- The problems will vary in difficulty, allowing coders of all levels to showcase their skills.
- Participants are ranked first by the number of problems solved, and in case of a tie, by the lowest cumulative submission time.

Rules:

Important(should be there):

- **Every team has to register online on the official Techfest website for the competition.**
- **A Team ID will be allocated to the team on registration which shall be used for future references.**
- **The decision of the organizers or judges shall be treated as final and binding on all.**

Others:

- **Individual Event:** This is strictly an individual competition. Team participation is not allowed.

- **No Copying:** Participants are prohibited from copying code from any online source(or AI generated code). Plagiarism will result in immediate disqualification.
- **Time Limit:** The competition will run for 2 hours. No extra time will be granted under any circumstances.
- **Rule Changes:** The organizing team reserves the right to modify the rules at any time during the competition.
- **On-Site:** All participants must be physically present on-site during the contest; remote participation is not permitted.

Timeline(in tabular format):-

Contest timings : 9:30 a.m to 11:30 a.m on 27th jan 2026

Organizers(name, phone number, mail id):-

Dileepan S K, +91 86609 94853, cs23bt049@iitdh.ac.in

Aayushi Singh, +91 77353 89083, is24bm037@iitdh.ac.in

Rewards and Prizes:- (Cash + In-kind)

- **Prize pool:**
 - **First Place: 3,000Rs**
 - **Second Place: 2,000Rs**
 - **Third Place: 1,500Rs**
- **Jr Prize pool (2025 batch)**
 - **First Place: 1,250Rs**
 - **Second Place: 1,000Rs**
 - **Third Place: 750Rs**
- **Goodies for the top 10 participants**
- **Prizes are reserved only for current residents of India**

Registration Form:-

- **Compulsory:** Name/Phone Number/Mail-Id
- **Others: Merch Size**

Comment:

For offline events - accommodation shall be limited/exclusive keep an eye on website

BitHunt

Event Name: Bithunt

Opportunity Type: Hackathon / Technical Treasure Hunt

About the Opportunity(Description):

Bithunt is an exciting fusion of **problem-solving and adventure** — a two-round event that tests both your coding skills and teamwork under pressure!

In **Round 1**, teams take on a fast-paced online challenge with **DSA and aptitude questions** that filter out the best logical minds.

In **Round 2**, shortlisted teams step into a **thrilling on-campus treasure hunt** where code unlocks clues. One team member decodes problems inside the **War Room**, while others scour the campus solving hints and cracking challenges which are basically solving more questions to progress toward the grand treasure!

It's not just about coding — it's about communication, collaboration, and cracking codes in style!

Rules:

- Every team has to register **online on the unstop** for the competition.
- A **Team ID** will be allocated to the team upon registration and must be used for all future references.
- Teams must consist of **3 to 4 members** from the same college.
- Internet usage during the online round is prohibited and you need to give the round in the unstop smart Hire app.
- The decision of the organizers and judges shall be **final and binding**.
- Misconduct, plagiarism, or unfair means will lead to **immediate disqualification**.

Eligibility:

All UG/PG students from any college (All the team members must be from the same college).

Format:

The event consists of **2 rounds**:

1. **Round 1 (Online)** – Aptitude + DSA Quiz
 - 10 aptitude and 10 DSA-based questions
 - Duration: **25 minutes**
 - Mode: **Online (Unstop platform)**
 - Top teams qualify for Round 2

2. Round 2 (Offline) – The Bit Chase

Duration: 3–4 hours

Mode: Offline (On-campus)

Round 2 consists of **3–4 zones (internal rounds 3 or 4)** depending on the time constraint), and each zone contains **3 bases**. Each zone remains active for roughly **40–45 minutes**.

At the start of Round 2, the team member stationed in the **War Room** solves the **first coding problem**, which unlocks the **clue to the Zone 1 – Base 1 location**.

The other team members use this clue to locate **Base 1** on campus. Once they reach the correct base, they receive a **QR code** to scan, which redirects them to a **set of DSA questions** (MCQs or fill-in-the-blanks) on a pre-provided web app.

Upon solving these questions successfully, the team obtains the **next clue** leading to **Base 2** of the same zone.

This continues until all **three bases in the zone** are completed.

After clearing all three bases, the team receives a **code** that must be entered by the War Room member to **unlock the next coding problem**.

However, the next coding problem can only be attempted **when the next zone becomes active** — until then, the War Room screen displays a waiting timer.

The same process repeats for all remaining zones.

Additional Details:

- Each zone contains **3–4 hidden gems**, which can be used to **earn bonus points** or **steal points** from another team that previously captured a base by stealing their base.
- The **scores obtained at each base** are automatically displayed in the **War Room dashboard**, allowing the War Room member to track progress in real time.
- If another team **captures one of your bases**, your team must **reclaim it**.
Coordination between the War Room member and the outdoor teammates is essential to manage captures, reclaim bases, and progress efficiently.
- After each **Zone** the teams having the **least score** gets **Disqualified**.

Timeline(in tabular format):-

Phase	Date	Time	Mode
Registrations Open	TBD		Online

Round 1: Aptitude + DSA Quiz	16rd Jan 2026	8:00 PM	Online
Announcement of Qualifiers	18th Jan 2026	12am	Online
Round 2: The Bit Chase	26th Jan 2026	3:00 PM – 7:00 PM	Offline
Results & Prize Distribution	27th Jan 2026	Closing ceremony	Offline

Organizers(name, phone number, mail id):-

P Sri Smaran , +91 6309776899, cs23bt039@iitdh.ac.in

Saikat Ghosh, +91 70012 92174, ce24bt001@iitdh.ac.in

Outreach parsec : outreach.parsec@iitdh.ac.in

Rewards and Prizes:- (Cash + In-kind)

- Prize pool: 10k+
 - First Place: 6,000Rs
 - Second Place: 4,000Rs
 - Third Place: 2,500Rs
- Goodies for winners of round-2
- Certificate of merit for the winners
- Goodies for participants of round-2
- Certificate of participation for all the participants

Registration Form:-

- **Compulsory:** Team Name, Members Name/Phone Number/Mail-Id
- **Others:** Merch Size

Get ready for the **Ultimate Bit Chase !**

Finance Workshop

Event Name:Gringotts

Opportunity Type(workshop/hackathons): Workshop

About the Opportunity(Description) :A finance workshop to train you in algo trading so that your money grows like magic. This workshop explores the intriguing domain of quantitative finance.

Timeline(in tabular format):-

Date	Time
24/1/2026	9am to 12pm
25/1/2026	9am to 12pm

Organizers:- Samarth M, outreach.parsec@iitdh.ac.in

Registration Form:-

- **Compulsory:**Name, Phone Number, Mail-Id

Rules:

If you register for the workshop, make sure to attend it fully.

Certificates shall be awarded to those who attend the workshop fully

Tentative registration fees:- Rs.599.

Registrations limited to 125 participants.

Design Workshop

Event Name: Design Playground

Opportunity Type (workshop/hackathons): Workshop

About the Opportunity (Description):

A hands-on, gamified design workshop that unlocks your creative problem-solving skills!

Design Playground introduces participants to the fundamentals of design thinking through interactive activities, quick challenges, and team-based tasks. Learn how to observe, ideate, and prototype solutions in a fun and engaging environment that encourages curiosity and collaboration.

Timeline (in tabular format):

Date	Time
24/1/2026	9 AM – 12 PM
25/1/2026	9 AM – 12 PM

Organizers:

Rajat Gupta, outreach.parsec@iitdh.ac.in

Registration Form:

Compulsory: Name, Phone Number, Mail ID

Rules:

- If you register for the workshop, please ensure full attendance.
- Certificates will be awarded only to participants who attend all sessions.
- All required materials for activities will be provided on-site.
- Team formation (if applicable) will take place during the workshop.

Singularity

Event Name: Singularity: Build. Evolve. Converge.

Opportunity Type(workshop/hackathons): Hackathon

About the Opportunity(Description) : **Singularity** is a 30-hour agentic AI hackathon that challenges innovators to push the boundaries of autonomous intelligence. The event enables students to build next-generation AI agents capable of reasoning, acting, and adapting in dynamic environments. Participants will explore the frontiers of multi-agent collaboration, real-time decision-making, and self-directed problem solving, applying the latest advancements in LLMs, tool use, and autonomous systems. Through rapid prototyping and creative experimentation, teams will design agentic systems that redefine what it means for AI to think and act independently, shaping the future of intelligent automation.

Rules:

Important(should be there):

- Every team has to register online on the official Techfest website for the competition.
- A Team ID will be allocated to the team on registration which shall be used for future references.
- The decision of the organizers or judges shall be treated as final and binding on all.

Others:

- **Venue:** IIT Dharwad, Permanent Campus
- **Mode:** Offline
- **Duration:** 30 hours + 3 hours for the final presentation round
- **Registration Fee:** Free (No charges apply!)

Competition Format

1. Preliminary Phase (Online Submission)

- The **problem statement** will be released **two weeks prior** to the hackathon.
- Teams must submit a **brief report** detailing their *approach, methodology, and proposed solution*, based on which they would be shortlisted.

2. Hackathon Phase (Offline – 30 Hours)

- Shortlisted teams will develop and refine their solutions at IIT Dharwad over 30 continuous hours.
- Deliverables include:
 - A **GitHub repository** containing all project code and documentation.
 - A **demo video** showcasing the working prototype.

3. Final Presentation Round (Offline – 3 Hours)

- Teams will present their solutions before a panel of judges.
- Evaluation will be based on *innovation, technical depth, real-world applicability, and agentic autonomy*.

Eligibility & Team Formation

- Open to **all students currently enrolled in recognized institutions across India**.
- Teams can consist of **2 to 4 members**.
- Interdisciplinary teams (AI, design, hardware, product, etc.) are encouraged.

Rules & Guidelines

- All submissions must be original and developed during the hackathon duration.
- Use of open-source tools, frameworks, and datasets is permitted.
- Each team must maintain a public **GitHub repository** for transparency.
- Plagiarism or code duplication will result in immediate disqualification.
- The organizing committee reserves the right to **modify rules or event details** at any time during the competition.

Timeline(in tabular format):-

Phase	Timeline
Registration Opens	22nd December 2025
Announcement of PS	27th December 2025
Last Date for Registration and Report Submission	4th January 2026
Announcement of shortlisted teams	5th January 2026 EOD
Commencement of Hackathon	25th January 2026 6:00 PM

Repo and Video submission deadline	26th January 2026 11:59 PM
Presentation Round	27th January 2026 9:00 AM

Organizers(name, phone number, mail id):-

Event Lead: SURYA PRAKASH S ; PhoneNo: +91-9344191103; EmailID: CS23BT068@iitdh.ac.in

Event Co-Lead: SHREYA S BHAT ; PhoneNo: +91-7795348992; EmailID: CS23BT070@iitdh.ac.in

Event Co-Lead: MEDA VARSHITH ; PhoneNo: +91-7382165165; EmailID: CS23BT066@iitdh.ac.in

Rewards and Prizes:- (Cash + In-kind)

Prizes & Rewards

- 🏆 1st Prize: ₹6,500
- 🥈 2nd Prize: ₹5,000
- 🥉 3rd Prize: ₹3,500
- 📦 Goodies for all shortlisted teams participating in the offline hackathon phase!

Registration Form:-

- **Compulsory:** Team Name, Members Name/Phone Number/Mail-Id

Additional Requirement:

- Each team must **submit a solution draft** along with their registration.
 - *Note:* The **submission deadline** for the draft will be **extended slightly beyond the team registration deadline** to allow sufficient preparation time.
- **Others: Merch Size**

Trumble

Event Name:Trumble (Invest, Grow and Prosper)

Opportunity Type(workshop/hackathons):Virtual Stock Market Trading

About the Opportunity(Description) :Trumble is a mock stock market competition where participants trade virtual funds in real-time market simulations.This competition will be conducted on StockGro, a Virtual paper trading platform designed to provide a realistic simulation of stock market activities. Participants will be required to build a virtual investment portfolio using simulated funds,strategically managing real-time price movements and market volatility.

Rules:

Important(should be there):

- Every team has to register online on the official Techfest website for the competition.
- A Team ID will be allocated to the team on registration which shall be used for future references.
- The decision of the organizers or judges shall be treated as final and binding on all.

Others:

- 1.Only trades performed on “StockGro” will be considered valid.All trades must be performed on StockGro, the designated competition platform.
- 2.The competition will strictly abide by the rules and regulations set forth by the StockGro app.
- 3.All trades must be made in multiples of 5.
- 4.Participants whose portfolio value falls below or equals 50% of the initial value at the end of the day will be disqualified.
5. Participants must make at least one trade and a maximum of ten trades per day.
- 6.Highly volatile stocks (e.g., pump-and-dump scam stocks) and Nifty trades are strictly prohibited and will result in disqualification.
7. Participants violating any of the above rules will be disqualified immediately.
- 8.The participant with the highest virtual portfolio valuation by January 23rd, 2025, will be crowned the trading champion.

Guidelines:

- **Eligibility:** All UG/PG students from any college can apply.
- There is **no registration fee** for the competition.
- **Mode:** Online
- The trading period will span for **five days**.
- **Team Size:** Individual Participation
- All participants must abide by the rules and regulations of the registration details.

Timeline(in tabular format):-

Phase	Timeline
Registration Starts	TBD
Registration Ends	TBD
Starting Date of Trumble	19/01/26
Ending Date of Trumble	23/01/26

Organizers(name, phone number, mail id):-Swarup Sahoo(Ph no-7030758790, mc24bt022@iitdh.ac.in)

Rewards and Prizes:- (Cash + In-kind):

- **Prize Pool:**

Winner	Rs 3,500
1st Runner Up	Rs 2,000
2nd Runner Up	Rs 1,000

- **Participation Certificates**
- **Trumble or financial slogans written coffee mugs for the top three and T-shirts for top 10 with funny crypto or stock related memes.**

OR

Exclusive Merch for the top 3 and “The Intelligent Investor by Benjamin Graham” book to the top 7

Registration Form:-

- **Compulsory:** Name,Phone Number,Mail-Id
- **Others: Merch Size**

Build A Bot

Event Name: Build a Bot 3.0

Opportunity Type(workshop/hackathons): Hackathon

About the Opportunity(Description) :

Build-a-Bot is the flagship robotics challenge of PARSEC 6.0, the annual technical festival of IIT Dharwad. This event brings together passionate innovators, engineers, and creators to design and develop autonomous robots capable of tackling real-world challenges.

What's the Challenge?

Teams will receive real hardware and have 24 hours to build, program, and fine-tune a robot that solves a problem statement provided at the start of the event. The 2026 edition focuses on Perception and Motion Control Robotics — pushing participants to explore how robots see, sense, and move through complex environments.

Rules & Guidelines

Registration

- Every team must register online on the official PARSEC website to participate in Build-a-Bot.
- A Team ID will be generated upon registration, which must be used for all future correspondence and submissions.
- The decision of the organizers and judges shall be final and binding on all participants.

Problem Statements

Build-a-Bot 2026 features two distinct problem statements:

- **Junior Problem Statement – Designed for teams new to robotics or at the beginner/intermediate level.**
- **Senior Problem Statement – Tailored for experienced teams looking for advanced challenges in Perception and Motion Control Robotics.**

Teams can choose one of the two categories during registration and will compete only within that category throughout the event.

Eligibility

- **Open to students from all recognized colleges and universities across India.**
 - **Teams may consist of up to 4 members.**
 - **Inter-college teams are allowed.**
 - **A team can register for only one problem statement (either Junior or Senior).**
-

Competition Format

Round 1: Online Qualifier

- **Conducted online via the official PARSEC platform.**
- **Teams will receive a problem statement (based on their chosen category).**
- **Participants must design, simulate, or propose a solution and submit it online before the deadline.**
- **Submissions will be evaluated on innovation, technical feasibility, and design clarity.**

- The top 10 teams from each problem statement (Junior and Senior) will qualify for the final round.

Round 2: Onsite Buildathon

- Conducted offline at IIT Dharwad during PARSEC 6.0.
 - Qualified teams will receive real hardware and 24 hours to design and build their robot around a new problem statement, which will be released one week before the event.
 - Judging will focus on execution, robustness, autonomy, and problem-solving approach.
-

Mode of the Competition

- Round 1: Online Submission
 - Round 2: Offline (Onsite at IIT Dharwad)
-

Judging Criteria

- Innovation and creativity
 - Technical design and functionality
 - Accuracy in task completion
 - Overall performance and presentation
-

Additional Rules

- Teams must carry their college ID cards for verification during the onsite round.
- Plagiarism, unfair means, or misconduct will result in disqualification.
- Teams are expected to maintain professional and ethical conduct throughout the event.
- The organizing committee reserves the right to modify rules, format, or evaluation criteria if necessary.

Timeline(in tabular format):-

Event	Timeline
Round 1 (Online hackathon)	2nd Jan
Release of problems statements for offline hackathon	One week before PARSEC
Round 2 (Offline Buildathon)	Jan 25th- 2026

Organizers (name, phone number, mail id):- Affan Pathan (+91 8983976975 | affanp1399@icloud.com) / Suchitra Dabholkar (+91 93599 85161 | me24bt041@iitdh.ac.in) - outreach.parsec@iitdh.ac.in (contact chahiye to Dev ka add kardo)

Rewards and Prizes:- (Cash + In-kind)

- Cash Prize - 5k + 3k + 2k PER problem statement
- “Exclusive Merch” - bottle/tees etc

Registration Form:-

- **Compulsory:** Team Name, Members Name/Phone Number/Mail-Id
- **Others:** Merch Size

Comment:

For offline events - accommodation shall be limited/exclusive keep an eye on website

StarQuest

Event Name: StarQuest

Event Type: Individual Astronomy Competition

Venue: IIT Dharwad Permanent Campus

Mode: Offline (On-Campus)

Rounds: Single round (Quiz)

Registration Fee: Free

Competition Format

Round 1: On-Campus Astronomy Quiz (Jan 24, 2026 | Duration: 1–2 hours)

A mixed-format quiz featuring MCQs, short-answer questions, image identification, and rapid-fire segments, covering a broad range of astronomy and space-related topics – celestial mechanics, astrophysics concepts, famous astronomers, constellations, and observational astronomy.

Top performers will win prizes, goodies, and free access to the Professional Astrophotography Workshop conducted by experts the next day.

Additionally, a select number of top scorers (TBA) will get exclusive entry to the workshop even if they don't win prizes.

Additional Segment: Stargazing Night (Non-Competitive)

After the quiz, unwind under the stars!

Join us for a stargazing session open to all participants and Parsec attendees – observe planets, constellations, and deep-sky objects through our Celestron NexStar 8SE telescope.

This segment is purely for exploration and enjoyment, not competition.

Rules

Important:

- Participants must register online via the official Parsec 6.0 website.

- A unique Participant ID will be issued upon registration.
- The decision of the organizers or judges shall be final and binding.

Others:

- Individual Event: No team entries.
 - Eligibility: Open to all UG and PG students across India.
 - No Cheating: Any use of unfair means will lead to disqualification.
 - Timed Quiz: The round will be strictly timed; no extra time allowed.
 - On-Site Requirement: All participants must be physically present at IIT Dharwad campus.
 - Rule Modifications: The organizing team reserves the right to make changes if necessary.
-

Organizers

- Rithika Athawade: +91 8976072606 | is24bm031@iitdh.ac.in
 - Ranit Maity: +91 6289541702 | me24bt050@iitdh.ac.in
-

Rewards and Prizes (Cash + In-kind)

- **Prize Pool: ₹10,000 (Prizes + Goodies)**
- 🏆 **First Place: ₹5,000 + Certificate**
- 🥈 **Second Place: ₹3,000 + Certificate**

- 🏆 Third Place: ₹2,000 + Certificate
 - Top Scorers: Goodies + Free access to the Professional Astrophotography Workshop
-

Registration Form

Compulsory: Participant Name, Phone Number, Email ID, College Name, Year of Study

Optional: Merch Size

Comment:

Accommodation for offline participants will be limited/exclusive. Please check the official Parsec 6.0 website for updates.

Synapse

Event Name: Synapse : The NeuroTech Challenge

Opportunity Type(workshop/hackathons): Hackathon

About the Opportunity(Description) :

‘EMG based Dual-Mode Prosthetic Control using Myoware 2.0 Sensors.’

Surface Electromyography (sEMG) signals carry information about muscle activation patterns that precede limb motion. By decoding these biosignals, one can infer and control prosthetic limb movements using machine-learning models.

Modern prosthetics require accurate decoding of these signals for both:

- Continuous proportional control — predicting joint angles or grip %.
- Discrete gesture recognition — classifying distinct actions like flex, rest, or double flex.

Can you extract features from noisy EMG signals - Biomedical Signal Processing - and design a robust machine learning model capable of both the tasks?

Then dive right in!

Top teams take the stage — **power real prosthetic arms** and **game through motion**, controlling every move straight from their forearms!

Rules:

Important(should be there):

- Every team has to register online on the official Techfest website for the competition.
- A Team ID will be allocated to the team on registration which shall be used for future references.
- The decision of the organizers or judges shall be treated as final and binding on all.

Others:

Data Format Specification:

- Each dataset contains:
 - Multichannel EMG signals recorded during natural wrist / hand / finger movements
 - Ground-truth continuous motion labels (angles, grip %, etc.)
 - Annotated gesture classes for discrete control
- Input: array of raw EMG values per channel.

- Output: model should return **continuous control values (angles, % open)** and **discrete labels (flex/rest, etc.)**

Event Structure

- **PHASE 1: Model Development and Submission (Online)**

Participants submit their trained model predictions (continuous + discrete) on a **test dataset** whose ground truth is withheld.

- **PHASE 2: Live Demonstration (top 5 teams) (Offline)**

Selected teams attach snap electrodes on their forearms. Real-time EMG is streamed to their trained model.

a) Physical Prosthetic Arm:

Continuous model outputs control an **actual** prosthetic arm, provided to the participants for live demonstration of their models.

b) Prosthetic Simulation:

Real-time predictions drive a **2D physics-based simulation** of the hand/wrist movements created by participants.

(c) Gaming Interface :

A general game interface will be provided for any participant to connect sensors and map gestures (flex, rest, double flex) to actions like fire/reload

Timeline(in tabular format):-

Release of the Problem Statement	10th January 2026
Release of the Dataset	10th January 2026
Submission of Trained Models (Phase I)	18th January 2026
Live Demonstration (Phase II)	23rd January 2026

Organizers(name, phone number, mail id):-

- Aayushi Singh +91 7735389083 is24bm037@iitdh.ac.in
- Affan Pathan +91 8983976975 affanp1399@icloud.com

Rewards and Prizes:- (Cash + In-kind)

- Cash Prizes: (Pool Rs.10,000)
 - First Position: Rs.5,000
 - Second Position: Rs.3,000
 - Third Position: Rs.2,000
- Participation Certificates
- Exclusive Merch for the Winning Team's Members

Registration Form:-

- **Compulsory:** Team Name, Members Name/Phone Number/Mail-Id
- **Others: Merch Size**

Upper Cap for Live Demonstration - 5 Teams (Size 2-4)

For offline events - accommodation shall be limited/exclusive keep an eye on website

Astronomy Workshop

Event Name: Astrophotography Workshop

Opportunity Type (workshop/hackathons): Workshop

About the Opportunity (Description):

A hands-on night-sky photography session where participants learn how professional astrophotographers capture and process celestial wonders!

This workshop covers telescope-mounted DSLR imaging, deep-sky object framing, exposure settings, and basic post-processing. Experience real astrophotography techniques guided by experts under the dark skies of IIT Dharwad.

Timeline:

26th January, 2026; 9pm-12pm

Organizers:

Rithika Athawade, is24bm031@iitdh.ac.in

Ranit Maity, me24bt050@iitdh.ac.in

Rules:

- Participants must register online through the official Parsec 6.0 website.
 - Attendance is **mandatory** for the full duration of the workshop.
 - Certificates will be provided only to participants attending the complete session.
 - Equipment and materials will be provided on-site; participants are advised to bring their own DSLR (optional).
 - Workshop slots are **limited** and will be allocated on a first-come, first-served basis.
-

Registration Form:

Compulsory: Name, Phone Number, Email ID

Optional: Merch Size

Comment:

For offline events — accommodation shall be limited/exclusive. Keep an eye on the official Parsec 6.0 website for updates.
